

Declaration of Compliance

with the requirements of Delegated Regulation (EU) No. 2015/962

Article 11 of Delegated Regulation (EU) 2015/962, which pertains to the implementation of action (b) of Directive 2010/40/EU provides that Member States' competent authorities may require roads authorities, road infrastructure operators, producers of digital maps and service providers to present a declaration of compliance with the requirements indicated in Articles 3 - 10.

This declaration must be submitted before the 13th of July every year to the Agence Française pour l'Information Multimodale et la Billettique – Tour Sequoia – 92055 LA DEFENSE Cedex.

IDENTIFICATION ELEMENTS

Indicate the name, address and type of entity for which the declaration is being made (roads authority, road infrastructure operator, digital map producer, service provider)

SERVICES PROVIDED

Tick the data categories covered

Static Data

road network links, including physical characteristics, such as:

- geometry
- road width
- number of lanes
- gradients
- crossroads

road classification

traffic signs indicating traffic rules and hazards such as:

- tunnels access conditions
- bridges access conditions
- permanent access restrictions
- other traffic rules

- speed limits
- traffic circulation plans
- freight delivery regulations
- toll booth locations
- identification of toll roads, fixed charges applicable to road users and available payment methods
- location of parking and service areas
- location of charging stations for electric vehicles and conditions for their use
- location of natural gas fuelling stations, liquified natural gas stations, and liquefied petroleum gas stations
- location of public transport stops and interchange points
- location of delivery zones

Dynamic data

- road closures
- lane closures
- bridge closures
- overtaking bans for heavy goods vehicles
- roadworks
- accidents and incidents
- dynamic speed limits
- direction of traffic on reversible lanes
- roads in poor condition
- temporary traffic management measures
- variable charges applicable to road users, and available payment methods
- availability of parking places

- availability of delivery zones
- cost of parking
- availability of recharging stations for electric vehicles
- weather conditions affecting road surface and visibility

Traffic-related Data

- traffic volume
- speed
- location and length of traffic jams
- travel times
- waiting time at border crossings with non EU Member States

Where relevant, specify any separate sub-categories or data merging carried out

Describe the extent of road network coverage provided by the service

Please specify below the existence of any restrictions on road network coverage for certain categories

ACCESS AND RE-USE OF DATA

Availability

In accordance with Articles 4, 5 and 6 of Regulation (EU) 2015/962, data may be re-used by any service provider within the Union, on a non-discriminatory basis, throughout the Union, within a timeframe that guarantees the timely supply of the real-time traffic information service.

Updating and quality

Data is updated in a timely fashion, and all possible efforts must be made to ensure the highest possible level of data quality. The conditions for re-use, on a non-discriminatory basis, must be specified.

Description of access point (only in case where the national access point redirects users to the access point of another operator)

Indicate your data access point(s) here

Describe the conditions for re-use of the data

Indicate the data exchange format and the version of this format (specify, where relevant, if there are several formats depending on the data in question) For dynamic data and road traffic data, the format must be Datex II or a machine-readable format that is fully compatible and interoperable with the Datex II format

Description of methods via which data is disseminate to information service users (where relevant)

VALIDITY

Roads authorities, road infrastructure operators, producers of digital maps and service providers must immediately update their declarations of compliance following any and all modification(s) to the provision of their services.
